

Bridging Reading and Intervention
with Neuroscience

UCONN

July 11, 2022 - August 12, 2022
Monday - Friday
8:15 AM - 3:30 PM

Free 5-week Summer Day Camp

Research study led by Dr. Devin Kearns & Dr. Fumiko Hoeft

UConn's Neag School of Education & the Department of Psychological Sciences

Who can participate?

Aspiring 3rd and 4th graders from English-speaking households who need extra help with reading.

(Online assessments will be done to see if your child is eligible)

What will my child do?

Research-based reading instruction, math instruction, and/or activities focused on memory and attention

Sports, arts and crafts, and campus exploration

Short and safe brain imaging scans to help us understand how different types of instructions strengthens your child's brain
