

Participants Wanted for a Research Study

Teen Beliefs and Coping Strategies: Prejudice and Stereotyping in Social Life

The purpose of this study is to better understand the social pressures that teens may face when they decide whether and how they may respond when they experience prejudice or discrimination from peers, or see it happen to others.

Teens ages 14-17 years are eligible to participate. Participants will receive a \$25 gift card for participating in a 1.5-2 hour focus group.

To learn more about this research or sign up to participate, contact Emma Wedell at emma.wedell@uconn.edu.

This research is conducted under the direction of Dr. Rhiannon Smith in the UConn Psychological Sciences Department.
